Developed an agricultural information system to manage farmer records, planting activities, and harvest data in Kelubir Village.

Tech Stack: Flutter · Laravel · MySQL

Experience

IT & Application Development
PT Pesona Khatulistiwa Nusantara (PKN)
2023 - 2026

- Maintained and optimized internal web applications, resolving technical issues and supporting operational workflows across regional mining units.
- Managed relational database queries, schema migrations, and routine data backups.
- Collaborated with operational teams to troubleshoot hardware and network issues, deploy software updates, and document technical procedures.

Graphic & Packaging Designer
PT Pesona Khatulistiwa Nusantara (PKN)
2023 - 2026

- Designed commercial labels, standing pouch packaging, and custom die-cut cardboard boxes for local food and beverage businesses.
- Developed packaging layouts incorporating product information, nutrition facts, BPOM-related labeling information, and retail barcode requirements.
- Translated traditional local food products into more organized and visually appealing retail packaging designs.
